

Creating a Parent Portal Account in PowerSchool

PowerSchool contains a portal for parents and students to view academic progress.

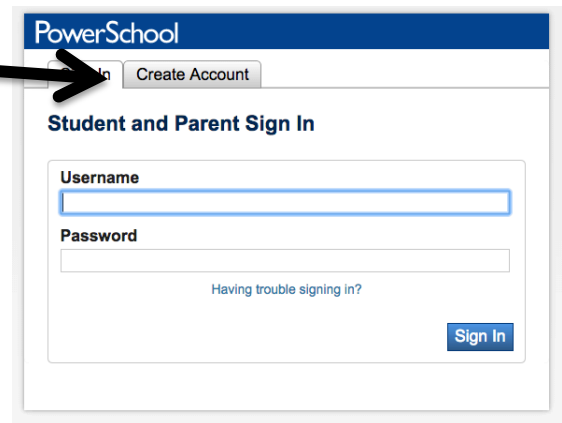

Students will be given their usernames and passwords at their school building and are available to students in grades 4 - 12.

The parent account allows parents to create their own usernames and passwords and then link all of their students into that single account (maximum of 7 students per account). Parents will need a letter, which provides an Access ID and Access Password, for each of their students in order to link all children to the one account. Please contact the appropriate school for your letter(s).

To begin:

1. <https://maumee.ps.nwoca.org/public> - Bookmark for easy access!

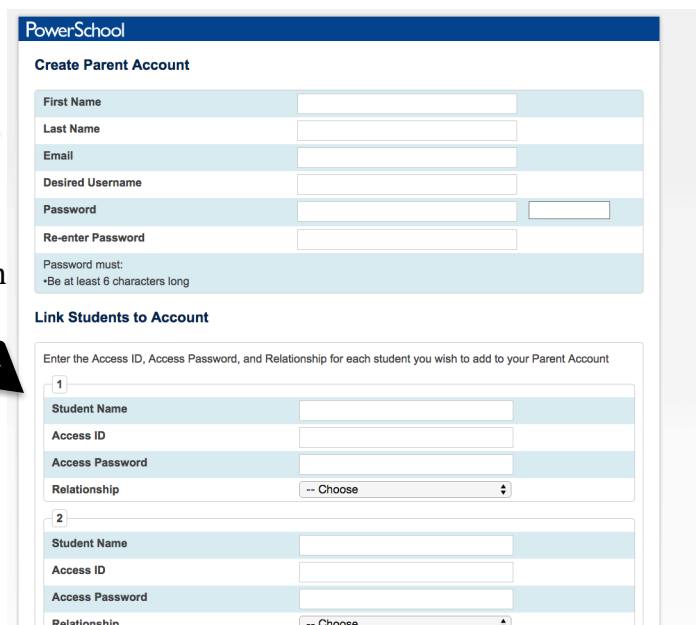

2. Click on "Create Account"

3. Fill in blanks in the top portion

4. Link students in the bottom portion

5. Submit (at bottom of screen).

6. Log in using your newly created username and password.
