

April 30, 2021

Parents & Staff,

Thank you parents for having your children prepared and working hard during all the state testing that is currently underway across the district. While we had hoped the state would forgo testing requirements this spring, do know that we will use all the results to help ensure we identify learning gaps created by the COVID pandemic and work diligently to address them.

I want to encourage parents to seriously consider having their children participate in our summer educational programming that begins Monday, June 14. We have a wide variety of options for students in all grades - those who may be struggling this school year as well as those who would benefit from enrichment opportunities. For parents who need child care - we have options that run the entire day; including school bus transportation and three nutritious meals. You find all the links you need below. Registration for our K-6 program closes today - Friday, April 30.

And lastly, I am asking every parent to complete a satisfaction survey for each of their children. The surveys are anonymous and we review every answer and comment in an effort to improve how we are serving your children. You find all the links you need below. The survey closes on Sunday, May 2.

Enjoy the rest of your day,  
Todd Cramer, Superintendent
