Subject: COVID-19 Update 4/24/20

April 24, 2020

New Information

In the coming days, principals and I will be sending out more specific details related to final plans for graduation, grading, days/times for gathering students' personal belongings from our schools, and the collection of technology.

I want to take this opportunity to share some insights into conversations currently taking place in the school district. We are making plans for a number of different scenarios for situations we can foresee possibly taking place in the coming months. These include, but are not limited to:

-Moving back the first day of the 2020-21 school year and adjusting our school calendar to then reflect this change.

-Designing a school year to maximize learning opportunities and the possibility of educating our students in smaller groups, meaning every student may not be able to attend school every day, to allow us to maintain social distancing and safety precautions from our bus stops to classrooms and in our cafeterias.

-Examining the reality of needing all students and staff to take their temperature daily and wear a facemask while at school.

Please know that these discussions are preliminary, however, we wanted to let parents know a few of the considerations we are currently gathering information about as we continue to plan for next school year.
