

Maumee City Schools

COVID-19 Weekly Report

Effective September 8, 2020, Governor DeWine and the Ohio Department of Health made an order that requires school districts to publicly report positive COVID-19 cases. The order also requests that parents/guardians of students report positive tests and/or cases of COVID-19 to their child's school within 24 hours to facilitate timely contact tracing and prevent further transmission of COVID-19. Maumee City Schools tracks and reports all confirmed cases to the Toledo Lucas County Health Department (TLCHD) within 24 hours of notification from a parent/guardian or staff member.

Every Monday, Maumee City Schools plans to publish data from the previous week on our district website: www.maumee.k12.oh.us.

COVID-19 Case Report - School Year 2020-2021				
Report Week Start Date (Previous Monday)	New Student Cases On-Site	Cumulative Student Cases On-Site *	New Staff Cases On- Site	Cumulative Staff Cases On-Site *
5/24/21	0	72	0	33

Today's Date: 6/2/21

* Cumulative cases number = total number of positive COVID-19 cases since reporting began on 10/12/20. On-site = participating in Maumee's in-person learning option.
